Register Private Tool	done
Investigate advanced tool	need web product first

Proof of concept	
Use old tool	not possible
refactor?	more work than is worth
restart?	yep

Basic insights	
go by player	yes
go by game	yes but after player
match history	yes
game details	in json (how to visualize?)

Visualization suite	Decision Point
use python tools	too complicated/wierd
external?	yes, powerbi or other
in web?	wait for full prototype

UI overhaul	Decision Point
use same package	only if I run out of time
new package	possible
go web	wait for full prototype
